Scented All-Purpose Cleaner

Ingredients

- One part white vinegar
- One part water
- Lemon or orange rind and/or essential oil
- Rosemary sprigs

**One part liquid simply means equal parts: For this instance we're using 265ml bottle so we will put 100 ml water, 100 ml vinegar*

Directions

1. Combine the above ingredients together, pour into a spray bottle, shake, and then let infuse for a week before using.
2. Once done, you can use the homemade cleaner to remove hard water stains, clean trash cans, wipe away wall smudges, and much more.
3. Besides a fresh scent, the lemon rind may help boost cleaning power.

Caution: Do not use acidic cleaners on granite, as they will etch the stone and proceed cautiously on stainless steel. Some manufacturers recommend against using vinegar on their appliance surfaces.

Notes

Note: You can change the scent using essential oils.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
