

The work we do won't be as powerful, far-reaching and impactful without the valuable support of our partners from the community and beyond. We have compiled some of the messages we've received over the past year of 2024-2025 and shared some of them below to serve as an inspiration and an encouragement to us and to other similar individuals and organisations, especially when the challenges come.

We at Kindle Corner are pleased to have worked in collaboration with STCA.

Both Sarah and Jodie are remarkable women who we all benefit from having tremendously. The team work very well through the guidance.

We only see a foreseeable future of excellence working with them and leaving a lasting legacy for the community. Many thanks.

Salina Khatun – CEO of Kindle Corner

Lianne's leadership with projects has been exceptional – her vision and dedication create real opportunities for people and make collaboration truly meaningful. Her professionalism, warmth, and ability to bring people together set the standard for community partnership. Working with Lianne and her colleagues is always a pleasure. We are so thankful for all the help that STCA has extended to us and it wouldn't have been possible without Lianne taking time to know us and the work we do.

UK Passage Team

We at Ncifoundations are deeply grateful for the unwavering support and generosity of the STCA (Somers Town Community Association). Since 2022, the STCA has played a crucial role in helping us deliver our Empowering Mothers sessions by providing us with in-kind rental space, allowing us to run our programmes in a welcoming and accessible environment. Creating a wonderful home base where all STCA staffs have been very supportive and wonderful.

Their commitment to our cause has had a real impact on the lives of the women and families we support. We look forward to continuing this immensely supportive partnership and growing together in service of the community.

Thank you, the STCA team, in particular Jodie Allen (Manager) who has been a complete angel to us and for being a vital part of the Ncifoundations journey.

The Ncifoundations Team

GLOBAL
GENERATION

We have worked with STCA for the past 6 years as neighbours and as collaborators in the Story Garden through MAKE Space and through the Future Neighbourhood partnership. STCA are brilliant at bringing people together and working in true partnership, across so many different organisations to all work towards a common goal of creating a more sustainable neighbourhood. Thank you for being such a great partner!

Nicole Van den Eijnde – Global Generation

The centre has provided a welcoming and accessible space for us for the last five years to deliver health and wellbeing services to the community. We're incredibly fortunate to have this partnership, which allows residents to engage in a wide range of events and activities that foster local connections, promote education, and offer a safe space to come together.

From this location, we're able to offer workshops, physical activity sessions, nutritional therapy, and even vaccinations – reaching communities who may not otherwise have easy access to traditional health centres. In addition, residents benefit from everything else the centre has to offer, creating a truly holistic support environment.

The strong leadership team led by Jodie Allen is warm, collaborative, and deeply committed to the community. We're proud and delighted to be part of such a vibrant and inclusive space.

Dr Ammara Hughes, Chair CHE GP Federation – GP Bloomsbury Surgery

THE
LAW CORNER

It has been delightful to work and collaborate with the STCA team over the years – they are truly the heart of Somers Town! Their commitment to bringing people together has played a vital role in helping the Law Corner find its footing and connect with local residents in need of free legal advice. We're especially grateful to use the amazing facilities at the Living Centre which has allowed us to work among the local community.

The Law Corner

BlindAid

For visually impaired Londoners since 1834

Our Camden Community Projects have been running since before lockdown, and I was fortunate to take over as Community Project Manager in 2023. STCA and The St Pancras & Somers Town Living Centre have been a true home for so many of our service users who attend our Camden Community classes. STCA have generously gifted us their space, and without that support, our projects simply wouldn't be where they are today.

For many of our service users, these projects mark the first time they've left their homes since experiencing sight loss. It's therefore vital that we offer a safe, welcoming environment and The St Pancras & Somers Town Living Centre provides exactly that. With its bright, colourful and inclusive building, friendly and helpful staff, and encouraging atmosphere, it's the perfect setting.

Our community projects are designed to encourage independence and social connection through both practical and creative classes. I feel strongly that these goals are reflected and enhanced by the values that The St Pancras & Somers Town Living Centre upholds within the community. BlindAid could not be more grateful for STCA's ongoing support, and we look forward to continuing this partnership.

Together we're making a positive difference across all our communities.

Thank you!

Molly Richards, Community Project Manager – Blind Aid

**LONDON
MUSEUM**

We can't praise Lianne and her team at the Somers Town Living Centre enough. The service they provide and relationship they have with their service users is inspiring and we feel grateful to continue to work with them.
